

User Journey

CONNECT replaces your site's existing registration and login with a simpler, secure approach to access – on campus and off—for individual and institutional users.

New user

New users register an account on your site in moments, and create a CONNECT profile in the process.

Existing user

Your site's existing users are informed of the upgrade to CONNECT on their first return visit.

Visiting a participating site

CONNECT users simply have to accept the terms and conditions of other participating sites to authorize and add them to their CONNECT profile. Plus, the website gets a new registered user.

The CONNECT User Profile

The CONNECT profile is a one-stop shop for users to manage their scholarly identity, including their privacy and security settings, institutional membership(s), ORCID and any other accounts they associated with their CONNECT profile. A user's CONNECT dashboard is accessible from their account on any participating CONNECT site.
